

# 2022 FORD MAVERICK XLT HYBRID SUPERCREW

BY: DRAGG A YOUTH  
AUTOMOTIVE PROGRAM

DRAGG Team welcomes its newest Ford vehicle to its after-school program, the 2022 Ford Maverick XLT Hybrid "Beach Watch 758"

Beach Watch 758's mission is to protect and save lives in local beach communities. Where the road ends for DRAGG's Police Ford Mustangs, the sand begins with the "Beach Watch 758" Ford Maverick keeping a "Bay Watchful Eye" for those in need!

DRAGG is a non-profit youth automotive after-school program geared towards encouraging its students to focus on their futures by providing a window into the automotive industry. The DRAGG Program is composed of multiple police departments, school districts, local industry members, and has created this first responder vehicle from a dependable commuter truck, to a stunning custom service vehicle with a life-saving community purpose. Our "Beach Watch 758" represents the commitment of public service first responders in beach communities.

Wherever the emergency is needed along the coastlines, this Ford Maverick XLT Hybrid will be there!
